**Product Description:**
5 PRIME HotMasterMix is a ready-to-use reagent mix for performing high throughput Hot Start PCR. Based on the revolutionary Hot Start/Cold Stop technology, the HotMasterMix guarantees the highest specificity and consistency for your PCR experiments.

**Features and Benefits**
- Highly specific PCR
- Ready-to-use master mix format
- Minimal optimization with self-adjusting Mg²⁺ buffer technology
- Convenient 4°C storage eliminates freeze and thaw cycles

**Quality Control Analysis and Specifications:**
**PCR Functional Assay:** In parallel amplification reactions the PCR efficiency and sensitivity was tested using tenfold dilutions down to $10^2$ copies of template DNA.

**Limitations of Use**
HotMaster is a registered trademark of QIAGEN Beverly, Inc. Please contact QIAGEN-Beverly for more information.

This product was developed, manufactured, and sold for *in vitro* use only. The product is not suitable for administration to humans or animals. SDS sheets relevant to this product are available upon request.
